

BASIC "044" WILDLAND FIFIGHTER ACKPACK

BASIC "044" WILDLAND FIFIGHTER ACKPACK

Wildland firefighters will appreciate all the industrial features of a sophisticated outdoor trail hiking pack combined with simplicity and sensible organization. Helps reduce fatigue by positioning the weight low on the back while distributing the load on hips and shoulders.

Capacity: 1200

Dimensions: H: 14" x W: 10" x D: 8"

Weight: 3.5

- 1) Wide-mouth top pocket flap opens to a top-load main compartment
- 2) Accommodates standard fire helmet under top pocket
- 3) Internal mesh divider sleeves keep
- 4) Fire-shelter stash bag gives fast, one-handed access to new- generation as well as old style-shelters
- 5) Fire-shelter stash bag is removable and adjustable to prevent "pack rash" (can be worn separately)
- 6) Bottle holsters hold up to 4 standard-issue water bottles, and feature foam construction to maintain shape; cinch cords and drain holes to keep dirt and water out
- 7) Ergonomic, adjustable, padded shoulder straps provide custom fit and superior freedom of movement
- 8) Padded, back panel equipped with hydration bladder stash — holds up to 100-fluid oz. bladder
- 9) Padded waist belt with bidirectional compression for optimum weight distribution and stability
- 10) Available Color: Normal Black
